

Sophos Firewall

Much more than a firewall

Sophos Firewall and XGS Series appliances with dedicated Xstream Flow Processors are at the heart of the world's best network security platform. Consolidate your network protection with our integrated and extensible platform to secure your hybrid networked world.

USE CASES

1 | Consolidate, simplify and save

Desired outcome: Spend less time managing network security

Solution: Simplify operations and reduce overhead with a unified network stack and a single management console from a single vendor.

2 | Secure by Design

Desired outcome: Reduced cyber risk

Solution: Sophos Firewall is built to Secure by Design principles, dramatically reducing exposure, eliminating patch fatigue, and helping maintain a strong security posture.

3 | Powerful protection and performance

Desired outcome: Enhanced protection without compromise

Solution: Stop new threats with the best TLS decryption and AI-powered zero-day protection, including static ML file analysis and dynamic sandboxing that won't impact performance.

4 | Automated Threat Response

Desired outcome: Accelerated identification and response to active threats

Solution: Sophos Firewall is part of a dynamic security ecosystem that shares information in real-time to immediately identify and automatically block active attacks.

5 | Work from anywhere – safely and securely

Desired outcome: Seamlessly enable a hybrid or distributed workforce

Solution: Sophos Firewall delivers a complete set of SD-WAN capabilities and integrates with Sophos Workspace Protection to protect your apps, data, workers, and their identities.

6 | Increased cybersecurity value

Desired outcome: Get more for your cybersecurity investment

Solution: Sophos Firewall delivers industry leading price-per-protected Mbps and many unique capabilities others charge extra for - or simply can't provide.
